A Message from Hitchcock

Greetings!

Thank you for attending the 18th Annual Brimfield Auto Show. Hitchcock Free Academy is a non-profit community center in Brimfield, MA and once again is proud to be a community partner of the Brimfield Winery, host of one of the largest auto shows in New England. The show has grown remarkably over the years, as has the number of businesses that have generously bought advertisements in this program that help to support Hitchcock Free Academy. We are grateful to them and encourage you to support these wonderful businesses.

We also have grown substantially over the years. This year marks Hitchcock's 70th anniversary as a community center. We began in 1855 as one of the first free public high schools in the area, and in 1956 we began our next chapter as a non-profit community center. Our mission is unwavering – to enrich the lives of residents of all ages through educational, recreational, and cultural programs.

We are a hub of social connection, personal growth, and lifelong learning. Over the past year, we hosted 449 class sessions, offering opportunities to explore new interests, build skills, and connect with others through classes such as yoga, piano, breadmaking, stained glass making, and dog training. In addition, we re-introduced our popular Brown Bag Speaker Series which features author-led book talks, historical lectures, and presentations of many topics of interest.

We continue to grow, so much so that this spring we reached an important milestone with the purchase of the two-acre parcel next door to us. Planning for the new building and grounds is in the preliminary stages, and we are excitedly envisioning the possibilities.

In addition to offering a diverse class schedule, we continued to bring people together through several much-loved community traditions. This year marks the 20th anniversary of our Farmers Market, with more than a dozen new and returning vendors. Our free Summer Concerts on the Common entertained hundreds of music enthusiasts each Wednesday evening; due to popular demand, we added an additional week to our program this year. Christmas at Hitchcock closed out 2025; we welcomed hundreds of merrymakers with live music, Santa visits, craftmaking, sweet treats, and overall good cheer, if you are in the area we invite you to join us this year on December 12.

While we look ahead, we remain mindful of our beginnings as a free public high school. In keeping with the legacy of our founder Samuel Austin Hitchcock, for more than 50 years, we have awarded academic scholarships to more than 250 local high-school graduates pursuing higher education. In May, we continued that tradition and look forward to supporting future generations for many years to come.

We have much to celebrate and look forward to, thanks to our staff, volunteers, instructors, partners, supporters, donors, and people like you.

We encourage you to explore our many offerings and look forward to seeing you soon. Connection happens here and together we are making a difference!

Cindy Skowyr

Private Events - Concerts - Fundraising Partner

Please consider stocking up for the Holidays today!
(Closing for season soon)

Brimfield Winery & Auction Acres

Locally owned. Community minded.

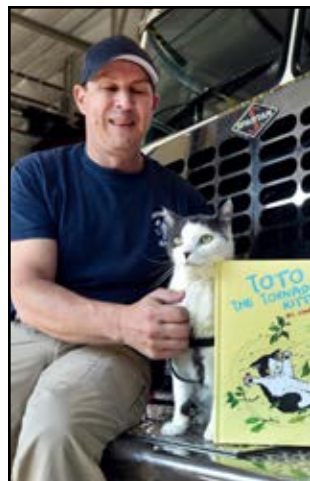

EUGENE V. RANDALL

— *Memorial Trophy* —

The Eugene "Gene" Randall Memorial Trophy will be awarded to the judges' favorite car of the show.

Gene was a long-time staple of the local car show scene. He had a life-long career in the automotive industry, loving all things mechanical, especially motorcycles and muscle cars. He had served as a judge for this show for many years.

Thank you

Jon Hall for all you do
for your community.

From your friend, Jon

Brimfield Firefighters Association

The Need Is Growing

"I don't have the time."

"It's dangerous."

"Other people in town will do it."

We hear these concerns a lot—and we get it! Like anything, firefighting can be dangerous. That's why safety is always our #1 priority. With the right training, gear, and direction, we only do what is safe.

And the time commitment? It's two nights a month for our trainings and other classes you sign up for—we understand you have a life!

We need more members! Nationwide volunteers in the fire service are down 60%.

What does it take to join?

Brimfield Fire is always looking to add to our department. You must be above 16 (for our junior program) or 18 for regular firefighter. You have to meet certain physical criteria and be willing to participate in twice monthly trainings. New gear, uniform and training is all free. Call firefighters earn hourly stipend for each work hour.

Want more information?

Reach out to firechief@brimfieldma.org

Who are we?

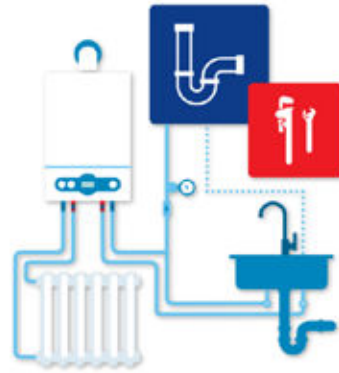

Brimfield Firefighters are your neighbors and live town. We respond on call and get paid a small stipend per call. When we aren't at the fire station we are teachers, public works staff, paramedics, HVAC designers, students, engineers, and in the military. We step up and leave what we are doing when help is needed.

CARING MAKES A DIFFERENCE.

If life teaches us anything, it's that we can't do it alone. That we're stronger together. That we all go through seasons of abundance and seasons of hardship. And when we help someone, we're made so much better for it. It's why giving back makes such a difference—it's an investment in each other.

Still on the Lot: Rebuilding in Brimfield

David Bell has been in the automotive business in Brimfield for more than 40 years and is the owner of Classic Heaven on Holland Road, providing auto repair, body work, painting and restoration. Cars have been his passion as long as he can remember and in fact, he bought his first car before he could even drive. He still owns that 1963 Pontiac LeMans, but hasn't had the heart to restore it again after it was destroyed by the tornado that swept through town on June 1, 2011.

David's business was hit hard by the tornado; he lost about 200 cars that he had been collecting over decades. Cars were scattered across the street, on top of other cars, some were literally torn apart. He has been rebuilding his business ever since, and it is thriving once again, but some losses are unrecoverable.

That LeMans has been sitting on the Classic Heaven lot, still battered from that day, now 15 years ago, and he is starting to warm to the

idea of rebuilding it, with help from the employees at his shop. And while that may be the car that holds the most history for David, he continues to work on lots of classic cars (and trucks and motorcycles...). He has a 1972 CJ5 that he may bring to the car show, and a 1970 Mustang Mach 1 that he is working on now. He has been a fixture of the local car scene for years, having started a local car club with a few friends almost 40 years ago.

The Living in the Past Car Club (L.I.P.S) started a car show that is a predecessor of the Brimfield Auto Show, giving out trophies in Brimfield Flea Market fields through the 1990's. He enjoys the collaboration and camaraderie of getting together with other people who share his passion, noting that they learn a lot from each other. And when David isn't at the shop, you may catch him with his band, True North, playing at a nearby restaurant or bar.

(left) David's 1963 Pontiac LeMans before the 2011 tornado.

(below) David's LeMans, 15 years later.

Welcome to Brimfield Steve Mags!

Brimfield is already pretty famous for a little antique fair that pops up three times a year, but car aficionados are also

taking notice of the Brimfield Auto Show, which is as big as ever coming into its 18th year. This year, automotive journalist, historian, author, and television host Steve Magnante aka Steve Mags is expected to be at the Brimfield Auto Show.

Originally from Massachusetts, Steve is best known for pioneering on-camera salvage yard explorations ("Junkyard Crawls") on Hot Rod Magazine TV and his work as a commentator for Barrett-Jackson collector car auctions starting in 2005. He is also known for hosting Roadkill's Junkyard Gold and serving as a brand spokesperson for Dodge.

A car lover since childhood, his current personal collection includes his Wilshire Shaker '63 Nova and Rampage '63 Dart as well as his daily driver, a 2002 GMC Sonoma.

Steve is also a prolific YouTuber, with five years of videos to catch up on if you are not already a subscriber. His professional career began with freelance writing for magazines like Drag Racing Monthly, Mopar Action, Scale Auto Enthusiast and Popular Mechanics New Car Buyers Guide. He transitioned from print media to television, offering his expertise and enthusiasm for all things automotive.

And while you are on YouTube, take a moment to check out multiple posted videos of the Brimfield Car Show from recent years. Vintage Rods and Classics, Rodder TV, Fins and Fenders, Jo's Footprints, and New England Media & Marketing all have videos that are worth a look if you missed it last year or just want to remember an incredible day!

Firefighters Choose Blazer for Top Prize

Last year's award for the Firefighter's Choice went to Sean Wilder's and Anne-Marie Glogowski's 1971 Chevy Blazer. They acquired the truck in 2005, but when the transmission blew shortly after purchasing it, the Blazer wound up sitting for several years until they had time to put in a new transmission. And since about 2012, when they started working on the car, they have been slowly upgrading and modifying it.

The Blazer is 100% topless, so it has become a winter project, and they treat it like a motorcycle, taking it out for a few hours on the weekends to cruise in the open air and blast the stereo system, which is the most recent upgrade.

Sean's daily driver when he was younger was a 1971 Chevy long bed pick-up truck with 8 inches of lift and 38-inch tires, which he drove until around 2001. On the hunt for a Blazer of the same body style, he found what he was looking for just a town over from where they lived and had to have it.

Sean lists some of the modifications they had done over the years, "The COVID year 2020 took out that transmission that we had originally replaced, which was just a 3-speed Turbo 350 with no overdrive, and modified it into a 700R4, so it now has overdrive as well. The interior has been gone through; digital gauges from Dakota Digital. Some suspension modifications and steering modifications due to the lift, so it's got crossover steering from off-road design in Colorado. Much of the suspension is from them also."

The last two years Sean and Ann-Marie have travelled out to the SEMA show in Las Vegas, enjoying the largest car show in the world, in addition to their visits to Brimfield!

1927 Buffalo Fire Truck Restoration Updates

Over the past year, the restoration of the Buffalo continues. A considerable amount of time and effort have been dedicated to preserving the truck and improving its overall condition.

Numerous minor maintenance items have been addressed with the goal of keeping the apparatus as original as possible while ensuring that it remains operational and can continue to be displayed and enjoyed by the community.

Attention has also been given to much of the equipment and tools carried on the truck. Many original and period-appropriate items have been cleaned, repaired, and refurbished, including fire extinguishers, ladders, axes, hooks, and other hand tools. These details help complete the truck and provide a glimpse into the equipment firefighters would have relied upon during the early years of motorized fire apparatus.

As part of the continuing preservation effort, the 1927 Buffalo has also been insured and registered, allowing it to once again travel beyond the fire station and take part in community events, parades, and car shows. The ongoing work is intended to preserve this unique piece of Brimfield history so that it can continue to represent the Town and its fire service for generations to come.

Can't wait to see what the next year has in store!

The People's Choice '25: Cacti Green Corvette

Bill Marchand has been driving Corvettes for 45 years and has two of them currently, including last year's People Choice Award winner, a 2024 Z51 Stingray in Cacti Green. The conspicuous color is a show-stopper and always get comments. At last year's car show more than a few people noted they had never seen that color before. The last-minute decision to order the green instead of the orange or yellow he was considering was suggested by his 26-year-old son who shares his love of cars.

Growing up, Bill always admired Corvettes so once he had been working and building his business for a few years he bought his first used Corvette. Bill says he has had at least five Corvettes over the years, including an '84, '88, and he still currently has his '91 and '24. His '91 convertible is also a standout color, turquoise.

A graduate of Chicopee high, longtime Springfield business owner, and West Springfield resident, Bill is very much a local guy and, in his retirement, likes to make the rounds of both car shows and local parades; his daughter-in-law drove his car in the Veterans Day Parade. Bill is also a former marine.

He loves driving his People's Choice winner on nice days, saying that while he always liked Corvettes, "after you drive them, you like them even more!" You might even see him driving his new bride around town. This past February he married an old sweetheart he knew from back in the 1970's, so if you see him at the Brimfield Auto Show this year be sure to say congratulations!

1968 Ford Ranch Wagon: The Massachusetts State Police "Pike Patrol" Returns

1968 A new high-speed connection across Massachusetts is open as part of the Interstate Highway system and a vehicle is needed to patrol the roadway and help stranded motorists. Enter the 1968 Ford Ranch Wagon used by Troopers to keep the motoring public safe. The Massachusetts State Police Museum's newest restoration was completed in August 2024. This vehicle is a tribute to the green and white station wagons which patrolled the Massachusetts Turnpike from 1957-1970.

In addition to being able to carry more equipment than a sedan, they were also equipped with stretchers and performed "double duty", often times serving as ambulances in rural areas that had no EMS services. Each barracks had one wagon assigned to perform these duties.

This once civilian-owned Arizona car was purchased by the MSPMLC in 2015 and has been meticulously

restored with the unique markings used by Troopers assigned to patrol the "Pike". The rear of this wagon contains period emergency equipment such as a stretcher, oxygen tank, hydraulic tools (precursor to the Jaws-of-Life), radiation detection equipment and a fire extinguisher. The doors seal depicts the original Turnpike logo – a pilgrim hat with an arrow slashing through it! Be sure to visit this great show car and find out more about the Massachusetts State Police Museum & Learning Center!
